Summary

With 20 years of full-stack development experience, I am an explorer of innovative web and mobile applications. My journey is characterized by a passion for discovering new technologies and leading successful projects.

Technical Expertise:

- **Frontend**   : Angular, HTML/CSS, JavaScript/TypeScript, Ionic, Cordova/Capacitor
- **Backend**   : Node.js/Express, Laravel, CodeIgniter, RESTful APIs
- **Database**   : MySQL, PostgreSQL, MongoDB
- **DevOps**   : Docker, Kubernetes, Git/GitHub, CI/CD pipelines
- **Additional Tools** : Redux, NgRx, Webpack, Postman

Achievements:

- Designed a groundbreaking CRM web application transforming client relationship management.
- Developed a state-of-the-art mobile app.
- Built a robust ERP solution for the sector optimizing operations.
